This machine-specific Spare Parts List applies to the machine number indicated in the header or on the title label of the ring binder.

Spare Parts List Layout

- The tables of contents include type-referred general outline illustrations and machine-specific lists of assemblies. The table of contents for the basic machine refers to machine-specific table of contents 00.500.

- An assembly consists of a spare parts illustration and an itemised spare parts list. Both the illustration and the parts list are identified by the same assembly number and an ID number. In the example, the boom substructure bears assembly number 60 011 and ID number 3 659 391 with revision index 000.

Itemised Spare Parts List

- The itemised spare parts list indicates the item, quantity, ID number, and the description of the respective spare part. By the item number, the associated ID number can be determined from the itemised spare parts list. The quantity (pieces, sets) indicated refers to the assembly shown. It is not indicated how many assemblies are in the machine. If the quantity of a part is marked "*", please refer to the "Description" column for the required length or square metres, respectively. For spare parts orders, the ID number shall be binding. If reference to an assembly is made in the parts list (a note in the "see page" or "▶" in "item" column on display) spare parts of this assembly can only be found on the indicated page of the spare parts list.

Spare Part Illustration

The spare part illustration may contain the following information:

5 — The item identifies the spare part.

(1) — The encircled item represents the assembly which can be ordered as a complete unit.

13 - 16 — The items following the first item will be delivered together with the latter but can also be ordered separately.

00.500 — The assembly number indicates where the component parts are listed.

(1) — The entire assembly is listed in the spare parts list under the item. For component parts, refer to "page 27", for example.

Ordering Instructions

For spare parts orders, we need the following information:

- Machine model and machine serial number (if necessary, also the aggregate number)
- ID number

  Quantity (pieces, length, square metres, sets)
- Forwarding address (consignee, railway station, airport)
- Mode of transport (mail, express, air freight)
- Invoice address (if other than forwarding address)

Prompt delivery will only be possible if all information is given in full.

Spare parts can be ordered with

- Terex-Germany GmbH & Co KG in Dortmund
- the Spare Parts Service Department
- Terex subsidiaries
- Terex dealers

Spare parts deliveries are subject to our Terms of Sale and Delivery.

Terex-Germany GmbH & Co. KG will not be liable for any wrong shipments as a result of non-observance of these Ordering Instructions.

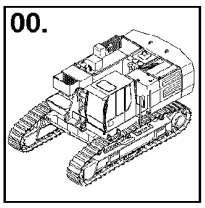

The illustrations of the parts are not binding with respect to their design.

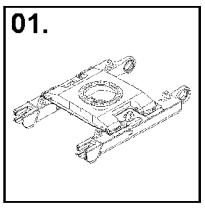

We reserve the right to modifications in the course of technical advance.

2 803 777.000

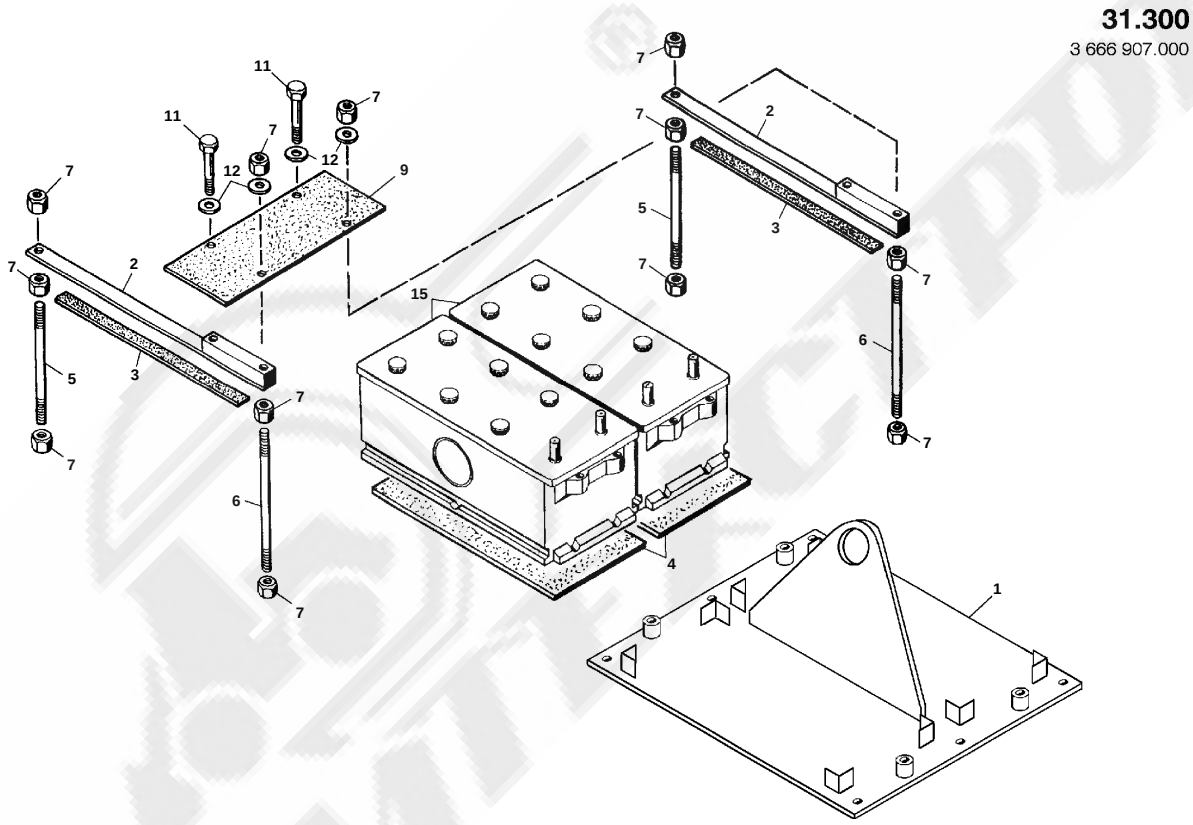

Der Elektroschaltplan und die zugehörige Legende befinden sich im Band 2 der Ersatzteilliste

The electrical circuit diagram and the respective legend can be found in volume 2 of the spare parts list.

El esquema de circuitos eléctricos y la correspondiente leyenda se encuentran en el torno 2 de la lista de piezas de recambio.

Le schéma electrique et la légende de trouvant dans le volume 2 de la liste des pièces de rechange.

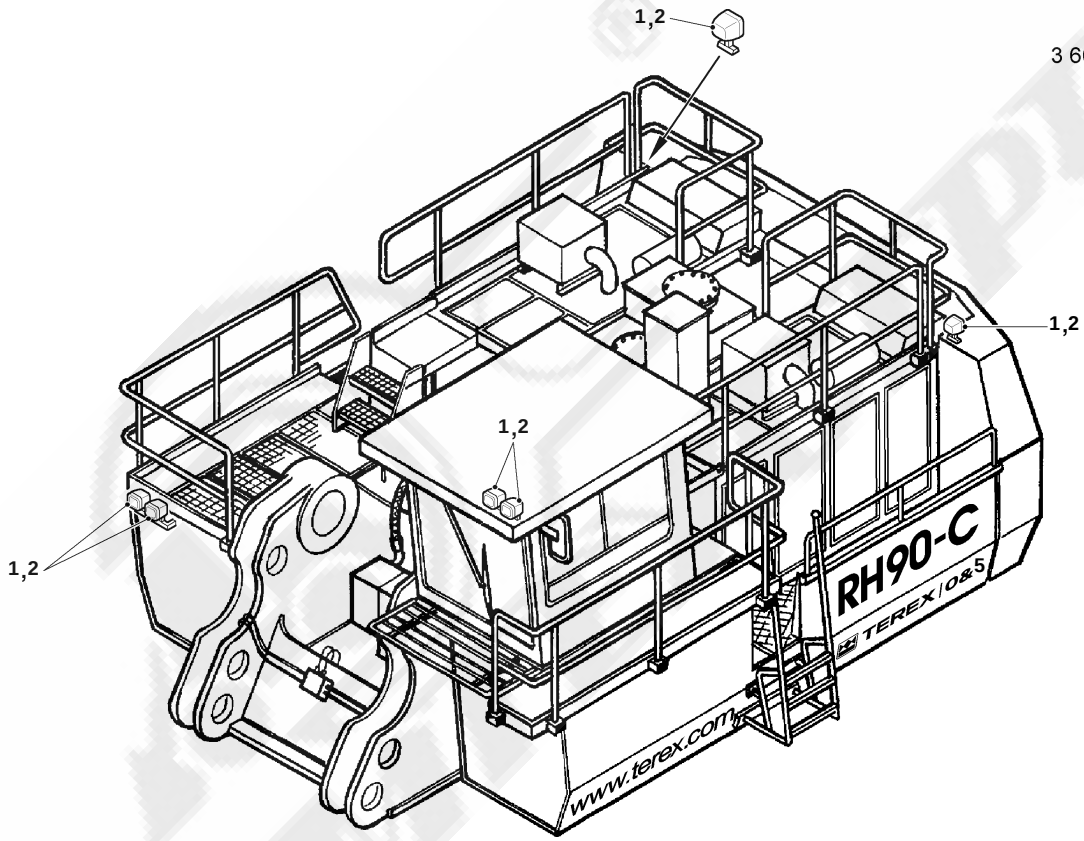

Электрическая схема и условные обозначения к ней находится во 2-ом томе списка запасных частей.
